Subject: RE: Bertolami - Meeting Cancelled
Importance: High

Gentlemen:

Steve received a phone call from Leo approximately 10 minutes ago and the meeting today has been cancelled because Leo's engineer cannot attend. Steve does not want to meet unless Leo's engineer will be in attendance. Leo is hoping to have the engineer available on Monday will get in touch with Steve to confirm.

Chip:

I do not yet have a time for the Friday site visit, but I do have Garry's report of his site inspection today. According to Garry, as of today, none of the items listed under # 6 of the attached draft Amendment has been completed, with the possible exception of landscaping. Garry also observed three illegal exterior lights attached to utility poles in front of the site. Garry informed Mr. Bertolami they needed to be removed.

You may want to have a heart-to-heart with your client before the site visit expected for Friday.

Steve

Steve: I spoke to Leo B. this morning. He tells me that he is available on Friday anytime after 2:00 p.m. Gary R., the building inspector, does not work on Fridays, so Leo will meet with him today. I am sending you some pictures of the fence by messenger today and you are welcome to attend a meeting on Friday although I will not be there. It may help to resolve the issues. Thank you again. Chip
